

Oracle MICROS Keyboard Workstation 270

ORACLE®
HOSPITALITY

SUPERIOR HARDWARE FOR HIGH-VOLUME OPERATIONS

KEY FEATURES

- Mounting platform compliant with Video Electronics Standards Association guidelines for use with industry-standard mounting brackets
- Cashier-facing MCR for better spill resistance
- LCD customer display
- Optional wireless networking card that supports diverse configurations

KEY BENEFITS

- Provides a robust, reliable, and easy-to-use POS terminal
- Offers effective wireless communication
- Lowers TCO with no fan or hard drive
- Reduces power consumption and energy costs
- Brings service anywhere with transportable hardware

Oracle MICROS Keyboard Workstation 270 is an embedded point-of-sale (POS) terminal specifically targeted for stadiums, arenas, and theme parks. It provides a dependable, easy-to-use POS terminal for the hospitality marketplace that meets the stringent guiding principles that the industry requires. Oracle MICROS Keyboard Workstation 270 is easy to install, robust, unobtrusive, and adaptable—so your operations can thrive.

A Perfect Fit for Concession Operations

Ideally suited for indoor and outdoor concessions and quick-service settings, Oracle MICROS Keyboard Workstation 270 can face any environment where exposure to liquids, bright sunlight, and extremes in temperatures are common. It can also be equipped with a rechargeable battery and combined with mounting points for portable printers and integrated wireless connectivity to allow for remote locations on movable carts or temporary stands. Capable of functioning in a wide range of operating temperatures and featuring 90 fully programmable keys, a 5.7-inch color QVGA display, a robust keyboard, a spill-resistant case, an integrated magnetic card reader (MCR), a transfective customer display, and an optional wireless networking card, Oracle MICROS Keyboard Workstation 270 is the perfect anytime, anywhere POS solution.

Small Footprint

A realigned keypad layout, an operator display, and an MCR enable Oracle MICROS Keyboard Workstation 270 to be placed in environments with limited space. It can be placed or mounted to meet your specific needs and connected to a wide range of POS peripherals.

Battery Powered

Oracle MICROS Keyboard Workstation 270 is designed to provide 10 hours of POS operation off a single charge. The charging circuitry is integrated into the workstation, requiring only standard AC power for recharging. The battery is also easily removable and field replaceable.

Diskless and Fanless

Because Oracle MICROS Keyboard Workstation 270 has no fan or hard drive, it is more reliable and has a lower TCO compared with other traditional PC-based devices. The workstation is passively cooled and uses flash memory for storage. Removing the mechanical components most susceptible to failure improves its overall reliability. And with no moving parts, there is no noise to identify its presence.

ORACLE®

Easy to Install, Support, and Service

Oracle MICROS Keyboard Workstation 270 includes Oracle Hospitality RES 3700 Client Application Loader, which makes installation as easy as connecting to the network and plugging into the power. A modular design enables ease of repair by the extensive Oracle service network. Operating systems and Oracle software upgrades can be performed automatically and unattended.

Environmentally Friendly

Oracle MICROS Keyboard Workstation 270 requires less than half the energy of a typical PC-based device, cutting power consumption by 50 percent. In addition, the power-saving mode enabled during idle times provides energy conservation for large facilities.

Certifications

Oracle MICROS Keyboard Workstation 270 is certified by the following:

- Federal Communications Commission Class A
- Underwriters Laboratory (UL)
- European Union (for compliance with the Restriction of Hazardous Substances Directive)
- TUV Rheinland
- China Compulsory Certification (CCC)
- European Economic Area conformity marking (CE marking)

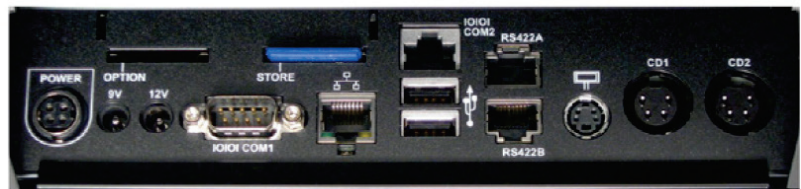

ORACLE MICROS KEYBOARD WORKSTATION 270 SPECIFICATIONS

Feature	Specifications
Processor	Freescale iMX27L (ARM9 Core)
Operating system	Microsoft Windows CE 6.0
Storage	<ul style="list-style-type: none"> • 128 MB fixed NAND flash boot • 256 MB removable secure digital input/output (SDIO) store
Memory	256 MB fixed onboard
Networking	<ul style="list-style-type: none"> • Onboard 10/100 Ethernet • Optional 802.11 wireless with integrated antennas
Integrated customer display	Integrated, 2 x 20 transfective LCD screen
Display resolution	5.7" color TFT QVGA
Keyboard	Fully programmable 90-key membrane keypad
Power supply	External, 65 W power brick with universal input
Magnetic card reader	Modular, integrated, three-track MCR
Power connections	<ul style="list-style-type: none"> • 1 – 9 V power output • 1 – 12 V power output
Operating temperature	<ul style="list-style-type: none"> • -10° to 60° Celsius • 14° to 140° Fahrenheit
